DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original specification provides support for the compartment or channel being open on one end. However, there is no support for the compartments or channel being open across their entire length. Thus, making the compartment or channels being open along their entire length new matter. The therapeutic massage tool being slidable across the entire length of the compartment is new matter.

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, it isn't clear if the horizontal compartments or channels are located on the back of the garment or on the interior of the garment that is attached to the back of the garment. In claim 1, it isn't clear how the compartments or channels are open along their entire length. In claim 1, it isn't clear how the therapeutic massage tool is slidable across the entire length of the compartment or channel. In claim 5, it isn't clear how the plurality of chambers covering a majority of the user's body. In claim 15, it isn't clear how the plurality of housings cover a majority of the user's body.
